EYEQ MONITORING

TURN EVERY CAMERA INTO A VIRTUAL GUARD

UNLOCK THE POWER OF ADVANCED AI MONITORING

At EyeQ, we believe that the best security strategy is proactive, not reactive. Our focus? Prevent crime before it even begins. By harnessing the power of advanced military-grade AI and analytics, we're able to detect and neutralize threats before they escalate.

When an anomaly does arise, our Security Operations Center (SOC) experts visually verify every event in real-time, ensuring a rapid response from local law enforcement when necessary.

Yet, advanced technology alone isn't enough. At the heart of EyeQ, you'll find seasoned professionals—veterans from military and law enforcement backgrounds. Since 2015, we've been meticulously building and training this elite team, dedicated to safeguarding your assets with unmatched diligence.

98% RISK REDUCTION

Local authorities prioritize alerts from EyeQ. Strong relationships and a sterling reputation mean when EyeQ calls, police response is instantaneous.
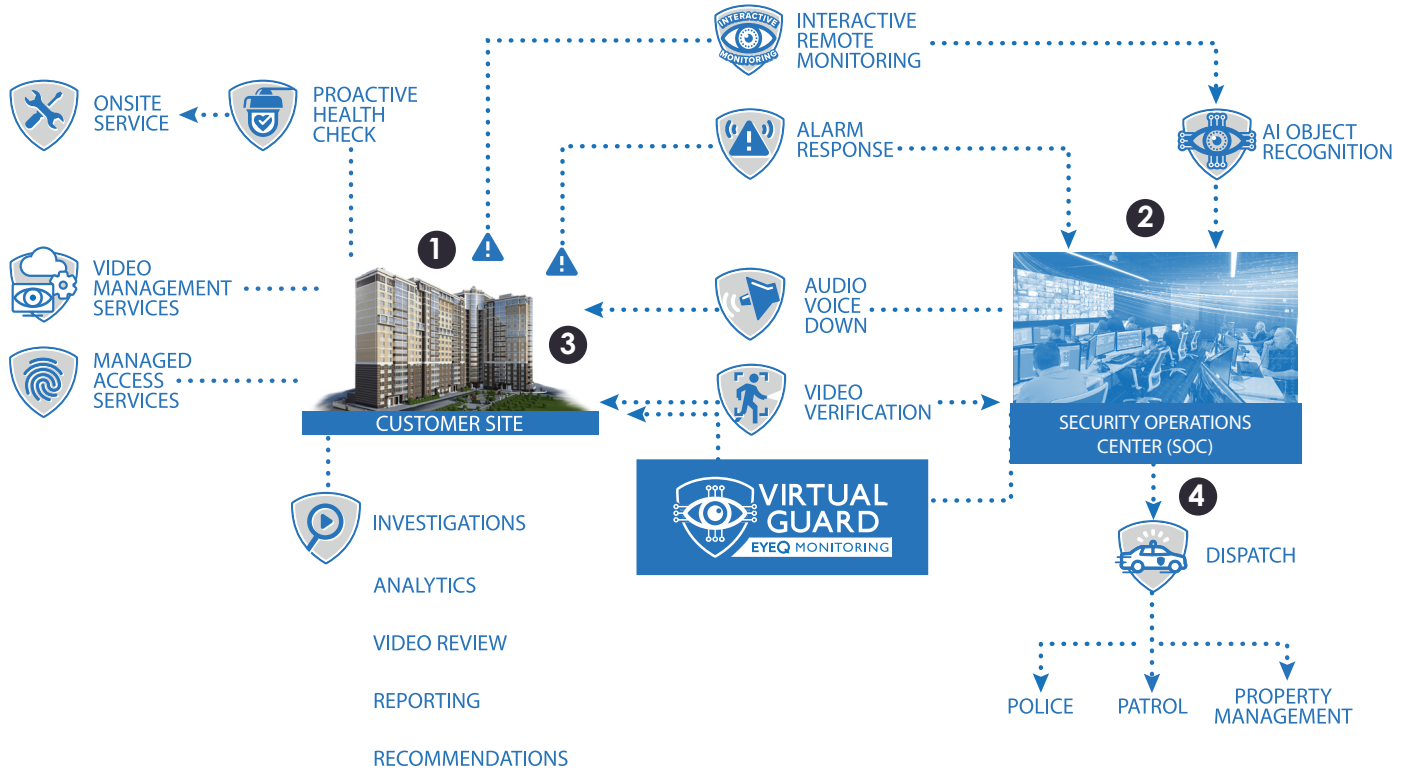

110% INCREASE RESPONSE

EyeQ prides itself on high arrest rates stemming from unmatched analytics and Artificial Intelligence, providing authorities with the evidence to apprehend criminals.

94% CRIMINAL DETERRENCE

When you need to investigate a situation or provide evidence to police, EyeQ provides the facts with supporting video and events that assure event resolution.

POLICE   PATROL   PROPERTY MANAGEMENT

1 EyeQ's Surveillance Operations Center (SOC) service is built on interactive video monitoring. This advanced system employs state-of-the-art Artificial Intelligence and analytics to provide enhanced security measures. With this technology, EyeQ delivers actionable insights into potential incidents before they unfold.

2 The SOC operators utilize this proven technology to ensure the utmost safety of your facilities, assets, and personnel. Their role is crucial in maintaining a robust and secure environment.

3 In the event of an incident at your facility, the SOC is promptly alerted either by an alarm or an AI-driven camera. The remote team instantly accesses live video streams, and often taps into real-time audio, to evaluate the gravity of the threat.

4 Once the situation is assessed, the SOC takes decisive action. They can initiate audio voice alerts to the location, neutralize the situation directly, or notify relevant authorities such as the police, security personnel, or on-site staff. This immediate reaction to potential threats significantly helps in preventing crimes before they can happen.

87% INCREASE IN VISIBILITY

Advanced military-grade AI cameras and video analytics see everything to help better protect and manage your property, assets and employees 24/7.

UP TO 50% LOWER EXPENSES

Reduces or eliminates need for traditional on-site security guards, plus offers proactive Next Gen solutions for a scalable monthly fee with no hidden costs.

75% POLICE RESPONSE IMPROVEMENT

Local authorities prioritize alerts from EyeQ. Strong relationships and a sterling reputation mean when EyeQ calls, police response is instantaneous.

THE SMART CHOICE FOR REMOTE VIDEO MONITORING

GET THE VIRTUAL GUARD ADVANTAGES:

Helps Stop Crimes Even Before They Happen

A proactive presence that deters criminals from engaging in unlawful activities to reduce risk of theft, vandalism, and other criminal acts.

US-Based SOC Experts

Our highly trained experts see everything and proactively respond to any threat lurking in the shadows.

Timely Evidence Collection & Investigation

Provides valuable evidence for investigation and prosecution and is often admissible in courts.

Total Peace of Mind

Provides business owners, their employees, customers, and visitors with an enhanced sense of security.

Focuses On Real Threats, In Real Time

Avanced Smart Technology filters out all non-suspicious activities to pinpoint and respoind to real threats instantly.

Quicker Police Response Times

Video verification provides the critical, timely information and evidence local authorities need to respond to incidents immediately.

Increased Security and Safety

Enables a quick response to potential threats in any environment, such as residential areas, commercial establishments, public spaces, and workplaces.

Significantly Lower Costs

Offers a more comprehensive and responsive solution for 25-60% less than traditional on-site security.

DESIGN

A successful security platform begins at the design stage, where we work with you to understand your challenges. Our design team integrates security, surveillance and access control to meet your requirements.

PLATFORM

EyeQ represents some of the best products on the market for NVR and camera solutions. Integrated with SOC technology for remote management and monitoring. EyeQ allows you to See What Matters.

VIRTUAL GUARD

Experienced surveillance professionals in the Interactive Security Operations Center identify threats in real time and pre-emptively deter crime using cutting-edge technology.
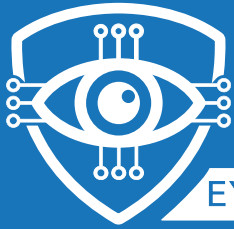

HEALTH CHECK / MANAGEMENT

We ensure your solution is operating at optimum efficiency with scheduled updates and technology health checks to confirm your system is working at peak performance.

FINANCING OPTIONS

Capital expenditures and operational restraints should not become a barrier to implementing a successful security solution. Our 360 Solutions offers financing options that fits your budget.

VIRTUAL GUARD
EYEQ MONITORING

Virtual Guard services deliver immediate ROI and elevates your security with complete visual monitoring of the site with response to alerts in real-time. For large sites requiring some on-site guard/concierge personnel, our Virtual Guard option allows you to staff fewer on-site personnel providing significant savings.

INTRUSION RESPONSE

EyeQ's Intrusion Response, featuring Live Audio Voice Down, deters trespassers by making them instantly aware that our SOC professionals are watching and recording their every action. The reaction from an intruder is as you'd expect: surprise and fear that someone is watching them and that police are on their way.

VIRTUAL PATROLS

Virtual Tours, an alternative to on-site staff, are led by remote surveillance experts who assess each camera location against set criteria. Using advanced AI, specialty cameras with night vision and thermal imaging, we capture details beyond human detection. These tours, either scheduled or random, provide unmatched security across your entire perimeter.

VIRTUAL SECURITY CHECK

From gate checks to confirming permitted access in remote locations, our Virtual Security Checks are always monitoring the right situations at the right, scheduled times to help keep your business operating seamlessly and securely round-the-clock.

VIRTUAL SECURITY ESCORT

In the evolving hybrid work landscape, personal safety is paramount. IncidentGO, powered by EyeQ, is an intuitive mobile app offering on-the-go protection. With a simple click, users connect to EyeQ's SOC, sharing their location, audio, and video. Its features include GPS pinpointing, two-way chat, and a live panic button.

VIRTUAL CONCIERGE

EyeQ's Virtual Concierge elevates brands with cutting-edge AI, offering tailored recommendations, reservations, and more. Seamlessly integrated into apps or websites, it uses AI and natural language processing for optimal user interactions. Ideal for sectors like hospitality and retail, it ensures efficient and superior customer assistance.

VISITOR MANAGEMENT

EyeQ's Visitor Management revolutionizes property access using AI. Streamlining entry, enhancing security, and optimizing tenant experiences, it offers automated check-ins, seamless visitor tracking, and remote credentialing. This solution not only bolsters tenant satisfaction and retention but also provides data-driven insights, ensures superior security, and significantly reduces operational costs.

FORENSIC INVESTIGATIONS

EyeQ's remote investigation specialists provide support for a broad range of forensic needs and initiatives – from contact tracing to eviction support. Leveraging our team's deep understanding of surveillance systems and proprietary search technology, we pinpoint incidents on your property and ensure they are properly documented and preserved for future internal or legal purposes.

INCIDENT REPORTING

EyeQ redefines real-time incident reporting with our streamlined approach to fast, accurate and reliable documentation. Under the direction of our certified experts, EyeQ Incident Reporting helps businesses mitigate risks, ensure legal compliance, and gain operational efficiency using standardized procedures, digital tools, and comprehensive data, including photographic evidence and witness statements.

SECURITY AUDITS

EyeQ's Security Auditing Services strengthen your property's security and minimize risks. Our expert team meticulously analyzes data, pinpoints vulnerabilities, and crafts comprehensive reports.

WE SUPPORT BUSINESSES IN MULTIPLE INDUSTRIES FROM LARGE DEPLOYMENTS TO SELECT PROPERTIES.

AUTOMOTIVE DEALERSHIP

RETAIL

INDUSTRIAL/MANUFACTURING

COMMERCIAL REAL ESTATE

MULTI-FAMILY RESIDENTIAL
